

How did the PMP course help you? I really enjoyed coming to this class despite it being at 8 a.m. on a weekend. Gary has a great sense of humor and way with people which made learning enjoyable and fun. I took a prep course approx a year prior to Gary's exam prep course. Th
e 'competitor' did not prepare me for the level of studying required for this test, I am somewhat glad I put off taking the exam until after taking Gary's class.
