

If anyone is seriously considering obtaining their PMP Certification, I highly recommend Gary's PMP Prep Course. Not only does Gary have the knowledge and expertise in Project Management, but he is also dedicated to assist you in building your career. The course provides step-by-step guidance to preparing yourself for the exam. The knowledge that you walk away with after taking this class is overwhelming. After passing the exam, I quickly realized how much of a demand there is for PMP's in the business world. Best of luck to all of you who decide to GROW and enhance your career... the choice is yours. My best advice is "follow the program" as Gary instructs. Again, I'd like to thank you for your dedication, support, and genuine care you demonstrate to your students.
